WORK EXPERIENCE

■ Brainbots Digital PVT LTD. (January-2025 To Present)

➤ Project Name - Nexchat (Mumbai)

Environment - Angular, TypeScript HTML, Material, SCSS.

Developed an end-to-end AI-driven WhatsApp sales automation platform with integrated CRM capabilities to centralize customer data, automate conversations, qualify leads, and boost sales efficiency. The system enables businesses to manage customer interactions and sales pipelines directly through WhatsApp.

Roles & Responsibilities

CRM Integration: Developed a custom CRM module to manage customer lifecycle, track lead status, assign agents, and visualize the sales funnel. Enabled customer tagging, notes, status updates, and history tracking.

Real-Time Agent Routing: Implemented intelligent routing logic to assign high-value leads to available agents in real-time, ensuring seamless escalation from bot to human.

Automated Workflows: Created dynamic engagement workflows (e.g., welcome, re-engagement, abandoned cart follow-up) to improve customer retention and conversion.

WhatsApp Business API Integration: Integrated official WhatsApp Business API for secure messaging with support for rich templates, delivery tracking, and session handling.

■ Brainbots Digital PVT LTD. (October-2022 To Jan-2025)

➤ Project Name - Shopyglam (Mumbai)

Environment - Angular, Ionic, TypeScript HTML, Tailwind - Material, SCSS, Next.js, React.

Shopyglam is a social e-commerce platform that connects sellers and influencers for seamless online marketing, particularly on social media like WhatsApp. It offers a centralized hub for shop setup, secure transactions, and quick access to fashion products. Influencers can create personalized shops and earn commissions on sales.

Roles & Responsibilities

- Developed the platform using Angular and Ionic to provide a seamless cross-platform experience on both Android and iOS.
- Collaborated closely with the business team to gather requirements.
- Implemented essential modules, including shop setup, product catalog, influencer dashboard, and order tracking.
- Created reactive and distinctive pages and interfaces.
- Developed dynamic forms and reusable components while applying responsive layouts.
- Made significant contributions to enhancing the platform's user experience by implementing responsive designs with Tailwind CSS for mobile compatibility.
- Integrated RESTful APIs and secure payment gateways to facilitate transactions and data management.
- **Phase 2:** Migration to React + Next.js

CAREER OBJECTIVE

Skilled Angular and React developer with strong problem-solving, collaboration, and frontend development expertise using JavaScript, Git, and Agile practices. Passionate about building responsive, user-friendly interfaces and delivering clean, maintainable code for scalable web applications.
